EU Ambassador School

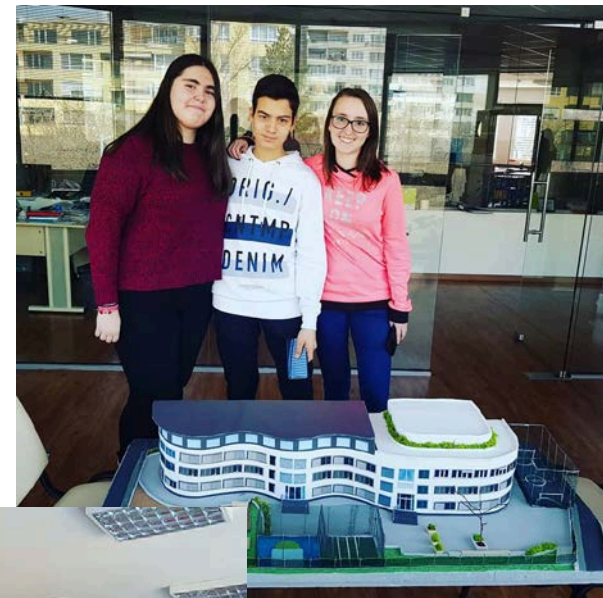

Innovative school

We aim to teach our students to be competitive, to inspire them to develop team spirit, creativity and take part in different campaigns. The EU Ambassador School Program teaches students the values of Europe and how the EU works. Being an Innovative school helps us challenge our students daily and develop soft skills which will be essential for them in the future.

Creativity

Students are always encouraged to show their creativity.

Students with big hearts

It's important for us to encourage students to open their hearts and contribute to the society we live in, that's why we created a special mission to get everyone involved...

Team Spirit

It's important for us to build community spirit and unity between our students, that's why they participate in various competitions and activities together.

Clubs

Clubs and extracurricular activities are also important for building team spirit and learning new skills.
